

Ace Seal®

Ace Seal is an asphalt-based pavement sealcoat consisting of a mixture of asphalt emulsion, fibers, select aggregates, and various other admixtures. It provides the asphalt surface with a deep, rich black color and protects against surface degradation and cracking making old pavements look new again while reducing sweeping and maintenance costs. Ace Seal is environmentally friendly and contains no harmful PAHs.

Environmentally Friendly

Economical

Excellent Performance in Harsh Environments

Rich Black Color

Reduced Maintenance Costs
